MOTOROLA TALKABOUT® MR350 TWO-WAY RADIO SERIES

Motorola Talkabout® MR350 is the ultimate communication tool for the serious outdoor enthusiast. With a range of up to 35 miles* and loaded with every possible radio feature, you know that with the MR350, you are ready for the extreme outdoors. Lightweight and rugged, with extra large buttons to help you operate even with gloves on, the MR350 is built to handle any challenge without weighing you down.

TOTAL EMERGENCY PREPAREDNESS

The MR350 includes an emergency alert feature, allowing you to enjoy your escape to the great outdoors with confidence that others can be informed of any dangers that may come your way. When the alert button is activated, the radio transmits an alert siren followed by transmission of spoken or incidental sounds. This allows you to send the signal to other radios and warn of impending danger. The MR350 also features a built-in LED flashlight for peace-of-mind during evening adventures or unexpected emergencies and power outages.

***NOAA WEATHER CHANNEL

Want to keep in touch with changing weather conditions during your family camping adventure? No need to stop the fun — weather alerts will provide your group with warnings of incoming storms or dangerous conditions. And, by tuning in to one of 7 NOAA channels (National Oceanic and Atmospheric Administration) on your MR350, you will always know what to pack with continuous local and regional weather broadcasting.

EXTRA POWER WHEN YOU NEED IT MOST

Push-To-Talk Power Boost, when activated, allows you to extend the transmission range by increasing the transmitter power output while saving battery life when no power boost is necessary.

HANDS-FREE COMMUNICATION

When you are hiking up a steep mountain trail, you really need to keep your hands free to brace the rocky terrain. With iVOX acting like a speakerphone and allowing hands-free communication, you can keep on moving without stopping to answer a call.

EASY CHARGE - 4 WAYS TO CHARGE

Designed to fit every lifestyle, the MR350 allows you the convenience of charging four distinct ways. Use the provided desktop charger at home or a mini-USB car cable on your way to soccer practice. Pack a mini-USB wall cable for recharge in the hotel during your family vacation or simply use a mini-USB cable to charge from your PC when no power outlet is available. (Mini-USB car, wall and PC cables are sold separately.)

SILENT SIGNALS

The VibraCall™ silent vibrating ringer is especially useful for locations where ringing can be intrusive. This feature is also great when noise from a sporting event would drown out your ring tone.

PRICING

MSRP for MR350R is \$79.99 per pair.(NiMH)

FOR ADDITIONAL MEDIA INFORMATION, CONTACT: COLLEEN PHILBRICK, 912-604-1950 OR PHILBRICKPR@BELLSOUTH.NET. FOR DEALER OR CONSUMER INQUIRIES, PLEASE CALL 1-800-638-5119.

*How far can I expect my radios to communicate? The communication range quoted is calculated under optimum conditions, with an unobstructed line of sight. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to, terrain, weather conditions, electromagnetic interference and obstructions.

**IP-51: Dust protection and protection from dripping water (vertically falling drops).

***NOAA radio service may not be available in all areas. Check with your local weather office for frequency and details, or visit www.weather.gov/nwr.
