

BLUETOOTH® ACCESSORY KIT FOR CLP RADIOS

PUT YOUR BEST IMAGE FORWARD WIRELESSLY

Whether you're checking in a guest or checking on inventory, the image you project is integral to your success. It can turn customer interactions into sales and customer service into satisfaction. Now the CLP Bluetooth Accessory Kit for Motorola CLP radios completes the picture of professionalism.

We asked our customers what they wanted in a Bluetooth accessory portfolio. **Make it look different from consumer earpieces**, they said. Ensure it **stays on either ear and is comfortable to wear for long shifts**. Limit wires so they don't get in the way. Let us share one pod, but **give each employee a low-cost earpiece**. Optimize it for use with Motorola radios to **prevent employee theft**.

PROFESSIONAL STYLING

From its discreet styling to lightweight use, we designed the CLP Bluetooth Accessory Kit to look business-professional and support the busiest days. Because it is not a consumer device, it is comfortable for long shifts, with a clip and swivel earpiece that stays securely in place.

PERFORMANCE YOU CAN COUNT ON

Unlike consumer Bluetooth devices, the Bluetooth Accessory Kit delivers 8 hours of battery life and clear communication in noisy environments. Earpieces are designed to only work with business two-way radios to deter theft and to rapidly pair each time you use them. Plus, the pod features antimicrobial material to help prevent bacteria and mold from growing on its surface.

COMFORTABLE TO WEAR AND SHARE

Simply clip on the Bluetooth pod, connect the swivel earpiece and wear over either ear. It's comfortable for 8-hour shifts with limited wires that won't tangle or get in the way. Since it is inexpensive and easily replaced, employees can use one pod and share earpieces on different shifts. And with a variety of styles to choose in the future, you can customize to your needs.

ALL THE BENEFITS TO SUPPORT BUSINESS

- Professional look
- Comfortable fit for long shifts
- Swivel earpiece stays secure throughout long shifts
- Use one Bluetooth pod with multiple earpieces for easy, hygienic sharing between employees
- Features antimicrobial material; ideal for health care and restaurants*
- Optimized for use with Motorola radios to deter theft
- Slim, compact charging cradle charges the Bluetooth pod quickly and easily
- Keeps pairing history so earpiece re-connects quickly each time you power up the radio
- Future earpieces can be customized to your unique needs

HKLN4513 - Swivel earpiece with in-line microphone

HKLN4512 - Bluetooth pod

HKLN4509 - Charging Cradle with plug-in power supply

THE CLP BLUETOOTH ACCESSORY KIT

SWIVEL EARPIECE WITH IN-LINE MICROPHONE

Part number	HKLN4513
