Enabling your workforce with the right communication tools empowers them to accomplish more, and can make all the difference to your bottom line. Simply put, Motorola two-way radios are the answer to everything from clearer communication and easier usage, to the uninterrupted performance on the job.** Find ergonomic design, crisp audio quality and long-lasting battery life in all of Motorola's business models. Additionally, all of our radios are narrowband compliant.

*BASED ON THE TOTAL VALUE OF THE MAXIMUM PURCHASE OF 60 DLR SERIES RADIOS. **COVERAGE MAY VARY BASED ON TERRAIN AND CONDITIONS

CLS SERIES RADIOS: Rely on impressive coverage capability in this compact radio. It operates on 56 business-exclusive frequencies and includes a coverage range of up to 200,000 square feet, or the equivalent of 15 floors, with the choice of either single- or four-channel models. Intuitive and user friendly, the CLS' streamlined design is fronted by a crystal-clear LCD display. The CLS (Clear, Light, Simple) Series meets military standards for shock, vibration, temperature and antimicrobial protection.

DLR SERIES RADIOS: The lightweight, sleek Motorola DLR radio provides a simple but powerful collaboration tool and allows the flexibility to configure the radios to meet your procedural needs and optimize staff experience. The license-free DLR features multiple call options which can enhance communications between team members, as well as frequency hopping technology for increased security. Talk Permit Tone lets users know when the channel is free for them to talk, therefore promoting orderly communications. Voice prompts allow easy navigation of menus, channels, battery status and more. The Home Channel feature automatically return users to their primary channel when a conversation is over.

CLP SERIES RADIOS: The CLP's small, unobtrusive design packs a big punch in a lightweight, palm-sized package and offers the most reliable communications in even the noisiest of environments. The CLP 1060/63 six-channel radios are Bluetooth™ capable. The CLP single- and four-channel models feature wired headphones. All CLP radios bring a choice of 90 UHF business-exclusive frequencies. They are easily operable and come standard with push-to-talk functionality and an extended battery life. These radios meet military standards for shock, vibration, temperature and antimicrobial protection.

DTR SERIES RADIOS: Give team members several options for public group calling through a digital one-to-many feature on the DTR that can accommodate up to 25 groups, from 50 public IDs. Digital one-to-one calling allows you to call and talk privately with a specific user's radio. A private-call recipient can receive an alert - either an audible or vibrating signal. And the recipient's unit displays the caller's ID. The DTR meets military standards for shock, vibration, water, dust and temperature, and can cover 30 floors/350,000 square feet (DTR 550 model) - a wise choice for busy working conditions.

RDX SERIES RADIOS: The RDX Series delivers just what you need to drive success - whether it's enhancing overall efficiency or reducing operational expenses. Designed for noisy areas, RDX radios are 30% louder than previous Motorola XTN and AX models. With a heavy duty, die-cast chassis, the RDX Series meets Military 810 C, D, E, F standards and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand/dust, temperature shock, plus high and low temperature.

RM SERIES RADIOS: Empowering your workforce with a reliable, long-lasting audio solution is the hallmark of the RM Series. Capable of customizing channels per radio via voice alias, the RM has a coverage range of up to 250,000 square feet (20 floors) and can operate on either four or eight channels, across each UHF, VHF and MURS frequency. Count on up to 12-hour battery life without the Battery Save feature and up to 15-hour battery life with the Battery Save feature. The RM Series radios meet military standards for shock, vibration, water, dust, temperature and antimicrobial protection and provides NOAA weather alerts.

PROMOTION TERMS & CONDITIONS

1. Promotion valid only on qualifying Motorola Solutions ("Motorola") CLS, DLR, CLP, DTR, RDX, and RM Series two-way radios ("Eligible Radios") purchased from a Motorola Authorized Business Radio Reseller between March 1, 2016 and June 30, 2016 ("Promotion Period").
