Pro-PTT™ Series

PLATINUM Series

PTM-3

The tactical "click" feedback and textured rubber covering ensure positive engagement even while wearing wet or heavy work gloves.

A Nexus female jack receives one of two current IMPACT™ headsets as well as future planned products like heavy duty double muff headsets and speaker mics.

OEM quality, professional/public safety grade products at a fraction of what you're used to paying!

The IMPACT Pro-PTT™ series enables the user to utilize various different style headset options that each interface with the same PTT junction connected directly to the radio.

The PTT is an oversized, heavy duty, IP57 rated, impact resistant, rubberized unit with large heavy duty swivel clip.
